

### Step by step procedure

Before you begin, please consider the two following potential sources of errors/problems:

### 1) The calendar tool

The online form uses an interactive calendar tool. In order to avoid mistakes, we recommend you to select the date in the following order: year; month; day. By clicking twice on the "month-year" field of the calendar, you will be able to choose the year.

### 2) Issues with your browser or internet connection

Our application form works without interim data storage of the information you filled in. Therefore, you need to fill it in at once without closing your browser. It should not matter how long it takes you to fill the forms in, but we recommend to have your documents prepared and to avoid longer breaks while completing your application. If you take a long break while filling in the forms, a short interruption of the Internet connection can set the form back to the start when you click on the "next" button in order to switch to the next page. If this happens, please close the browser and start again.

If you have other technical problems to fill the form or if content is lost when you go to the next page, we strongly recommend changing the browser. Individual settings of your Internet browser can cause problems with interactive forms.

Please notice that once submitted, the application cannot be changed!

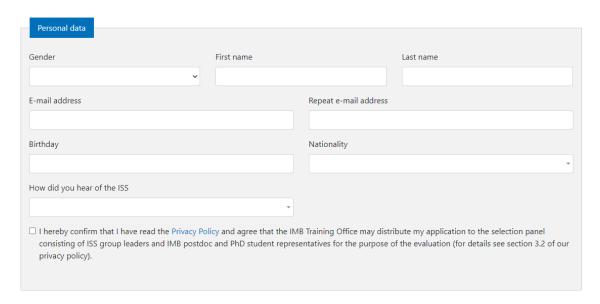

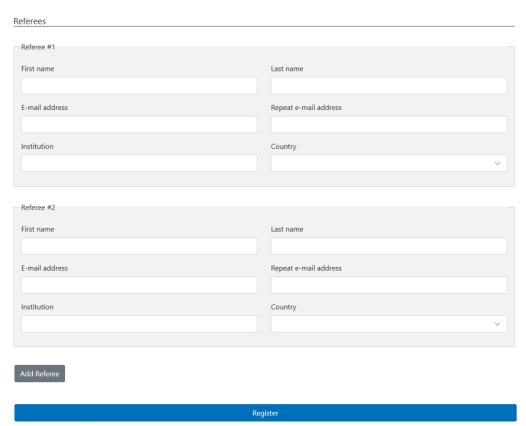

# Registration procedure

### 1. PERSONAL DATA

### 2. REFEREES

Once you have submitted your registration, you will receive an email confirmation including:

### Step by step procedure

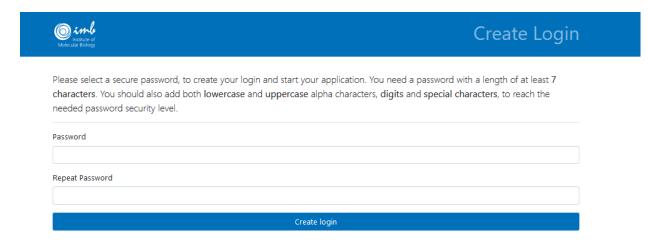

- Guidelines on how to apply.
- Your own personalized link to the application form.

Please make sure that you check your spam folder if you have not received the email within 1 day.

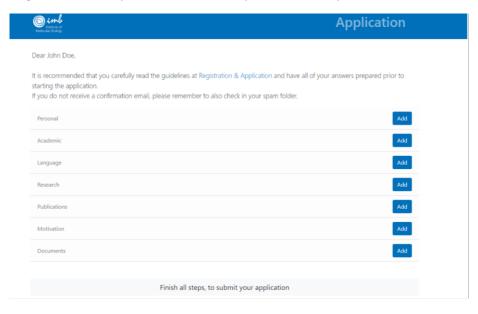

At the same time, the system will send an email to your referees, with instructions on how to submit their reference letter. If they have not received it, they should **check their spam folder** too.

# Application procedure

Before you can start your application, you need to create your personal login by selecting a strong (secure) password to register your account. This will allow you to return to your application at a later time point, again using the link provided in the confirmation of registration.

After logging in to your personal profile, the following page will appear with all the sections you need to fill in. By selecting "Add", the respective section will open and the required data can be entered.
