

## Prof. Dr. Antje Krause

Head of Bioinformatics,  
Vice President of Research and Technology Transfer,  
Spokeswoman of the Committee “Informatics in Life  
Sciences”, Society of Informatics,

University of Applied Sciences Bingen

## “Bioinformatics Education in Germany”

**28 August 2012, 11:00 h (s.t.)**

**Venue:** 2nd Floor Seminar Room  
Institute of Molecular Biology (IMB)  
Johannes Gutenberg University Campus Mainz

All are welcome to attend

Host: Dr. Bernhard Korn, IMB

## Abstract:

Although bioinformatics is a quite young discipline, today genetics, molecular biology and diagnostics can no longer be imagined without the use of computer science. The talk will give an overview from the first bioinformatics diploma degree course started in 1989 at the University of Bielefeld to the broad variety of today's bachelor and master degree programs. Where are the differences? What will come in the near future? What should come next?
