“Bringing it all together: Diagenode's
ChIP-seq workflow!”

10 December 2013, 11:00 (s.t.)

Venue: IMB Seminar Room 2nd floor
Institute of Molecular Biology (IMB)
Johannes Gutenberg University Campus Mainz

All are welcome to attend

Abstract

Complete solutions for your ChIP-seq!

Whether you are experienced or new to the field of chromatin immunoprecipitation, Diagenode has everything you need to make ChIP as easy and convenient as possible while ensuring consistent data between samples and experiments. As an expert in the field of epigenetics, Diagenode is committed to providing complete solutions from chromatin shearing reagents, instruments such as the Bioruptor® (the gold standard for chromatin shearing), ChIP kits, the largest number of validated and trusted antibodies on the market, Library Preparation kits and the IP-Star® Compact Automated System to achieve unparalleled productivity and reproducibility.
