

Dr Anne Vieten

**Team of Research Data Experts,
Johannes-Gutenberg University Mainz**

**“How to manage your
research data”**

Monday, 18 February, 12:00 (s.t.)

Are you getting lost in masses of research data?

This talk will show you, which activities have to be taken in research data management during the research data life cycle - from project planning to publication and the permanent storage of data. Following these clues, your data will meet the criteria of being FAIR - Findable, Accessible, Interoperable and Reusable. The European Union demands research data to be FAIR. This presentation will teach you how to set up a research data management plan required for proposals for the EU and many other third-party funding bodies.

**Venue: 2nd Floor Seminar Room
Institute of Molecular Biology (IMB)
Johannes Gutenberg University Campus**

All are welcome to attend

Host: Dr Ralf Dahm, IMB
