

Dr. Jan Krauß & Dr. David Kутtenkeuler

**Patent Attorneys,
Boehmert & Boehmert, Munich**

**“Intellectual property rights in life
sciences - Basics, strategies &
specialties, pitfalls & troubleshooting
for scientists”**

Tuesday, 30 October, 12:00 (s.t.)

Our brief presentation aims at providing practical guidance for researchers in the life sciences on how to better integrate intellectual property (IP) into their research. We will discuss inventors and inventions with a focus on academia, what is patentable or not, the interplay of publications and patent filings, and the effect of patents on research. Furthermore, we will provide an outlook on recent legal developments both in Europe and the US.

We are also prepared to answer specific questions, either in the Q&A section or after the presentation.

**Venue: 2nd Floor Seminar Room
Institute of Molecular Biology (IMB)
Johannes Gutenberg University Campus**

All are welcome to attend

Host: Dr Ralf Dahm, IMB
